

# WATER BOTTLING PLANT IN BOYACÁ - COLOMBIA

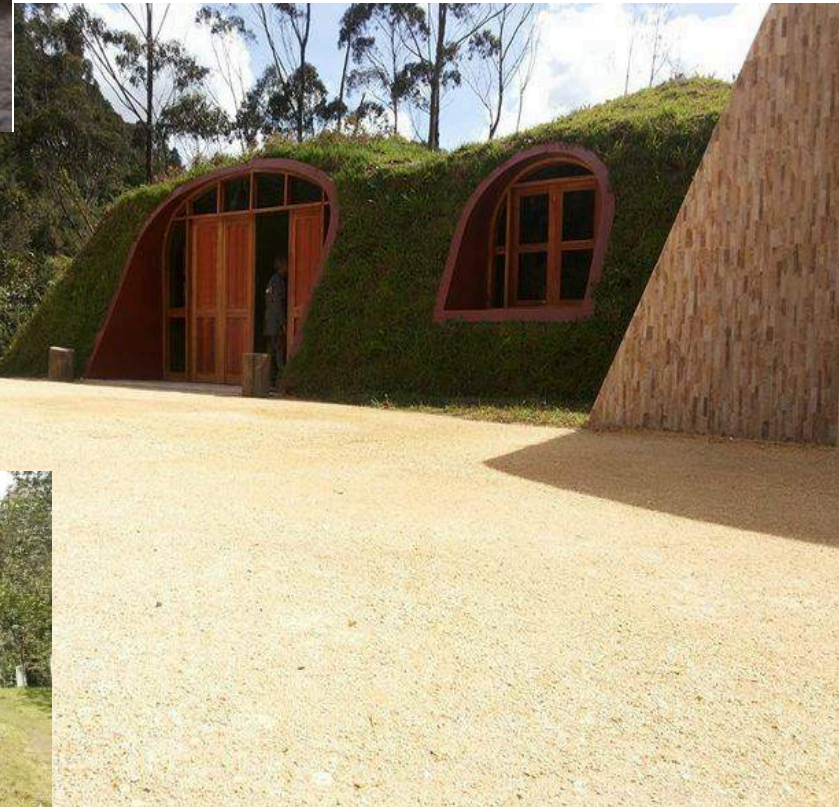

Beautiful gourmet water bottling plant that is fed from the underground tributaries of the Paramount of Duitama, in Boyacá - Colombia.

A 100% green industry that mimics the mountainside. As a protected area it is forbidden to build, but when Municipal officials were shown our Technology they gave permission since our Architecture is camouflaged in the landscape and is fully harmonized with the natural environment.

This gourmet water bottling plant is a living example of the kind Architecture that respects the environment.

made in several levels, to blend with the steep mountain terrain.
